

## Ajay Sharma

B.Tech, Computer Science & Engineering  
Dr. A.P.J. Abdul Kalam Technical University  
Lucknow, Uttar Pradesh India

Phone : +91 – 9758990388  
Email : ajaysm2201@gmail.com  
House No 213 Block A Pocket 3 Second  
Floor Sector 17 Rohini Delhi 110089

### Education

2014-18	Bachelor of Technology, Computer Science & Engineering	68%
2013	12 <sup>th</sup> (Senior Secondary Examination) Central Board of Secondary Education	67%
2011	10 <sup>th</sup> (Secondary Examination) Central Board of Secondary Education	67%

### Previous Job

Sept, 2018 - May, 2019	<b>Designation : Engineering Application Developer (GreenLeaf Engineering Limited)</b>  <b>Job Description :</b> I have been working as the CAD System Developer on the Technosoft CAD Softwares. My job is to add the new features as per the demand of the Costumer's these features are generally solutions related to the real world problems of the Design Engineers.  Basically, I was working on the C-Lisp which has the flexibility to work with the large data set. I have done 3 projects for these guys at Technosoft/GreenLeaf. <ol style="list-style-type: none"><li>1. Weld-Maps-module for the AMEtank Solution.</li><li>2. Rack-Beam-Support for the AMEtank Solution.</li><li>3. Bottom-Support-Structure the AMEtank Solution.</li></ol> It's been really mind blowing experience while working with them. But, End of the day it is a Mechanical Engineering Domain. I believe that I had the intuition about the computing technology that can be very helpful for the growth not only for me but that will also be very helpful for my employer If I follow my believe.
---------------------------	---

### Academic Projects

Aug 19	<b>MyPortFolio</b> This is a my portfolio that is very useful in terms of showcasing my skills to the employer. This is responsive web application build with the frontend framework i.e, Bootstrap and also uses fontawesome under the hood. I have also hosted my portfolio on Github Pages you can visit the below url to have a look at that It will also give you short of a clue what kind of employee I can be. Technology Used : {HTML + BOOTSTRAP + FONT AWESOME}  Github Link : <a href="https://ajaysharma388.github.io/ajaysharma388.io/">https://ajaysharma388.github.io/ajaysharma388.io/</a>
July 19	<b>XyloPhone   A Funny MusicPlaying App</b> Basically, this is a cross-platform mobile App that is build up using the Flutter that is open source cross platform framework and allow developers to build beautiful mobile app for Android & IOS This app allow user to play new intuitive tones as we know that XyloPhone allow their user to play and compose the music on the go.  Github Link : <a href="https://github.com/ajaysharma388/xylo_phone">https://github.com/ajaysharma388/xylo_phone</a>

June 19

### **DiceRolling | A Funny Game**

Basically, this is a cross-platform mobile App that is build up using the Flutter that is open source cross platform framework and allow developers to build beautiful mobile app for Android & IOS

This app allow user to roll the dices until the value on the dices are set to 6 which this app consider as the win situation and send back message to the user that he/she wins but if it doesn't happen then user can roll the dice only specified times according to the level selected by him and if he used all the moves and didn't get the right result he/she lost that game.

Jan - May 18

### **DevConnect | Social Platform For Developers**

Basically, this web application is made to help the student & professional who want to showcase their profiles to the employer and they can also post anything they want & other users can either like or dislike their post and can also write their reviews in the comment section. Basically it is a full stack application that is implemented completely on the JavaScript and Its related frameworks Like {Express Js , Node.Js & Angular.Js}. I had also used the bootstrap to add some intuitive UI and many more we can discuss about that.
